Jerry Zucker Middle School of Science

NORTH CHARLESTON—

---

Dr. Nancy J. McGinley  
Superintendent of Schools

On Wednesday, February 19, 2014, Richard Prause, Francis McCarthy and Kevin Swift, three engineers from Boeing, spent the morning at Jerry Zucker Middle School sharing their engineering career experiences with 8<sup>th</sup> grade students. After introducing themselves, the engineers showed a brief video about the new Boeing 787 Dreamliner and then a powerpoint slideshow about the field of engineering. During the presentation, students learned about what an engineer does, examples of engineering, and the rewards of a career in engineering. The engineers wrapped up their visit by answering questions from the students. The visit from Boeing was part of their community outreach during National Engineering Week (February 16-22).

For more information regarding this event, please contact Principal Jake Perlmutter or teacher librarian Miranda Cary at (843) 767-8383.
