Pickle Project Puckers Palates
*Students at Jerry Zucker Middle School learn about
the science of pickling*

Jacob Perlmutter
Principal
Jerry Zucker Middle School of Science

NORTH CHARLESTON—

Dr. Nancy J. McGinley
Superintendent of Schools

Students in Ms. Jacqueline Moncure's 6th grade Horticulture class recently puckered their palates with a pickle project. Before getting down to the business of pickle making, the students researched how to pickle any fruit or vegetable. Once they understood the pickling process, they tasted a variety of spices, and then used their favorites to formulate their own pickle recipe. Each team of students pickled their cucumbers and performed taste tests of the finished product before they went before the judges. Students also created a slogan and advertisement for their pickles designed to persuade the judges to choose their pickles over the others. The pickles ranged from sweet and mild to hot and spicy. The winning pickles were the "Hot the Spot" ones made by Belen Martinez, Jonathan Chavez, and Hailey Kammerer.
